

HI TECH FLUID POWER SYSTEMS TRADING

مرحبا التقنية لتجارة أنظمة الطاقة السائلة

TRUSTED

SERVICE

PARTNERS

Offering a full range of services for the hydraulics industry. From design and build to servicing and component supply, we offer a first-class service and quality, cost effective products.

Design, Manufacture & Servicing of Hydraulic Systems

About us

We specialize in the
manufacture of standard
as well as custom

About HFPS

At HFPS we offer a full range of services for the hydraulics industry. From design and build to servicing and component supply, we offer a first-class service and quality, cost effective products.

Our directors and engineers have a vast range of knowledge and experience with projects covering nuclear, offshore, industrial machinery, transport, petrol-chemical and many more!

IMI CRITICAL VALVES

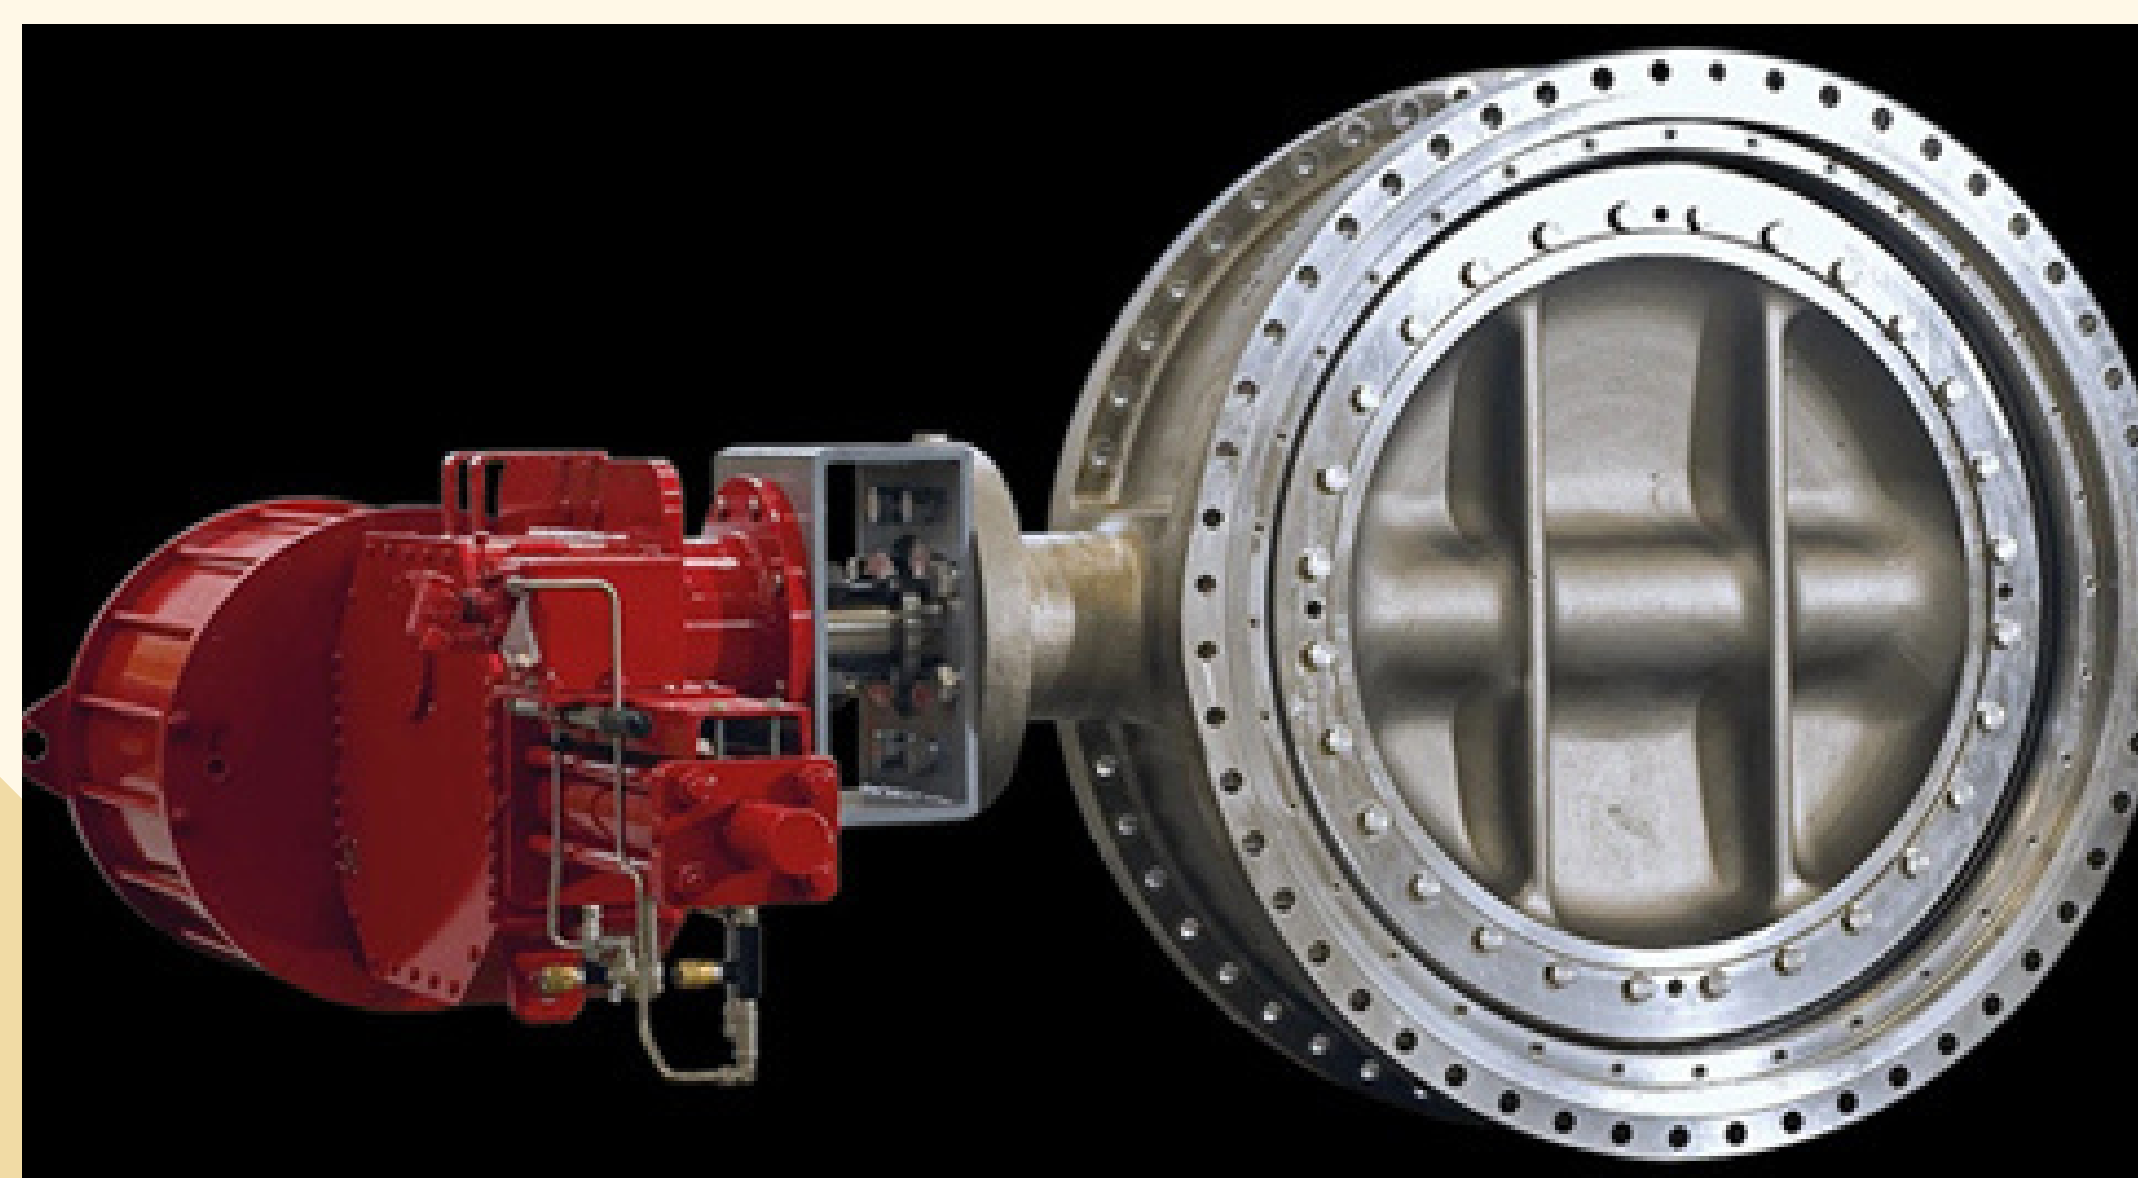

We offer specialized flow control solutions tailored for essential industries such as oil and gas, power generation, petrochemical, marine, pharmaceutical, and heavy industry. Our extensive range of industrial valves—including control, safety, and isolation valves—paired with advanced actuators and related products, enables us to provide bespoke solutions that address the unique demands of these critical sectors.

World class valves and actuators

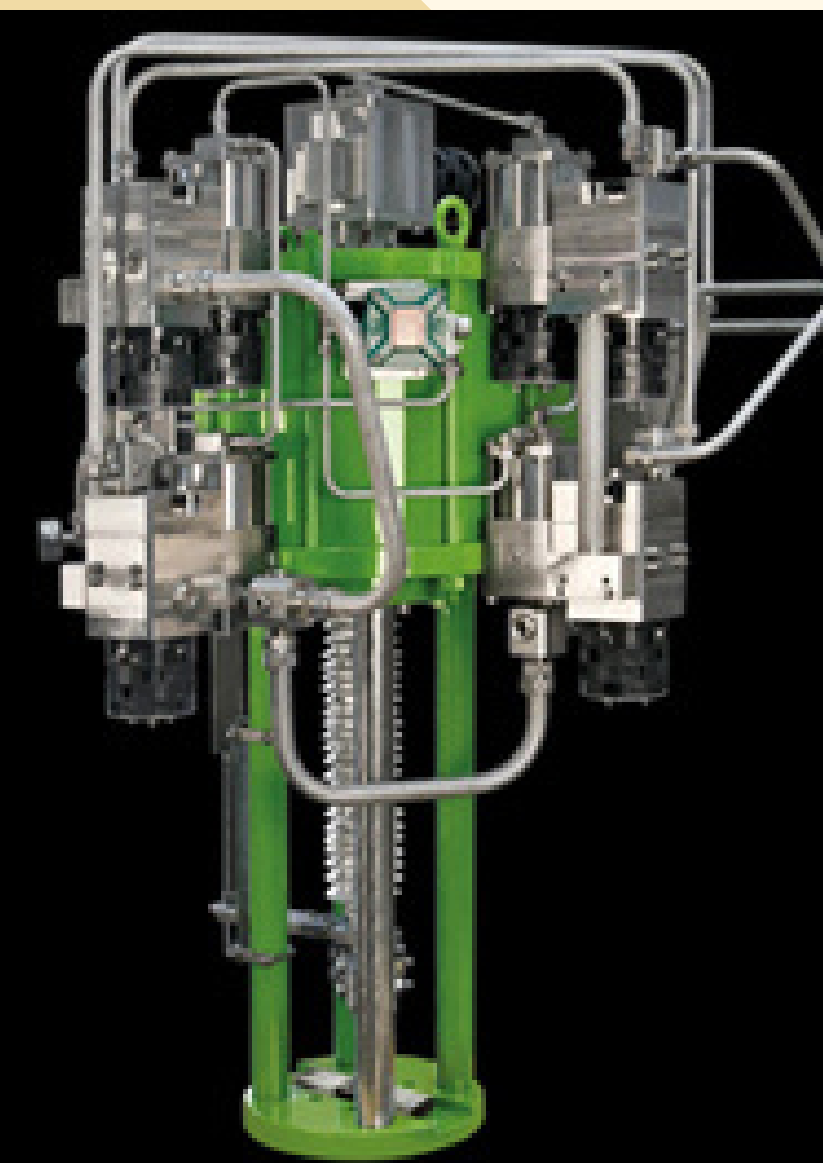

Control Valves

Isolation Valves

Safety Valves

DYNEX HYDRAULICS

Dynex manufactures hydraulic components and systems for use on mobile and industrial machinery. These pumps, valves, motors and power units have been sold worldwide for over 60 years. Products include high-pressure piston pumps, high-pressure directional and pressure control valves, heavy-duty piston motors for demanding conditions, and electrohydraulic actuators for remote control. Dynex also builds standard hydraulic power units or specialized systems for demanding conditions including high pressure and special fluids.

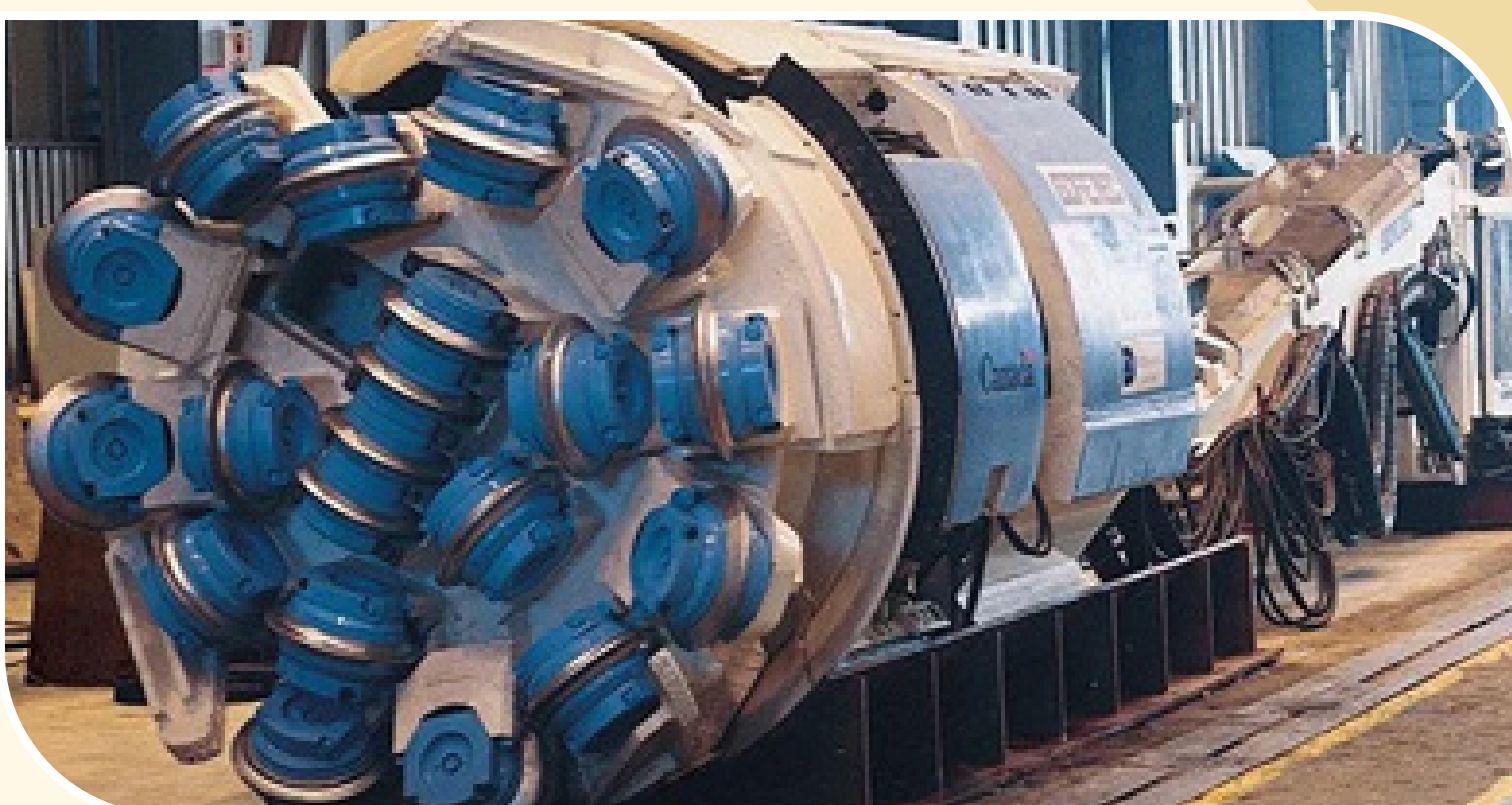

Variable Delivery Pumps

Custom Power Units

Power Industry

Industrial

Galassi & Ortolani has been making special valves since 1937.

The range of products, comprising: diaphragm valves, pinch valves, butterfly valves, ball valves, gate valves, check valves & pneumatic actuators.

Pinch Valve Manual,
Pneumatic & Electric
Operated

Diaphragm Value Manual,
Pneumatic & Electric
Operated

Butterfly Valve Lever,
Gear, Pneumatic & Electric
Operated

Check Valves to be
Horizontally or Vertically
Positioned

HIFI FILTERS

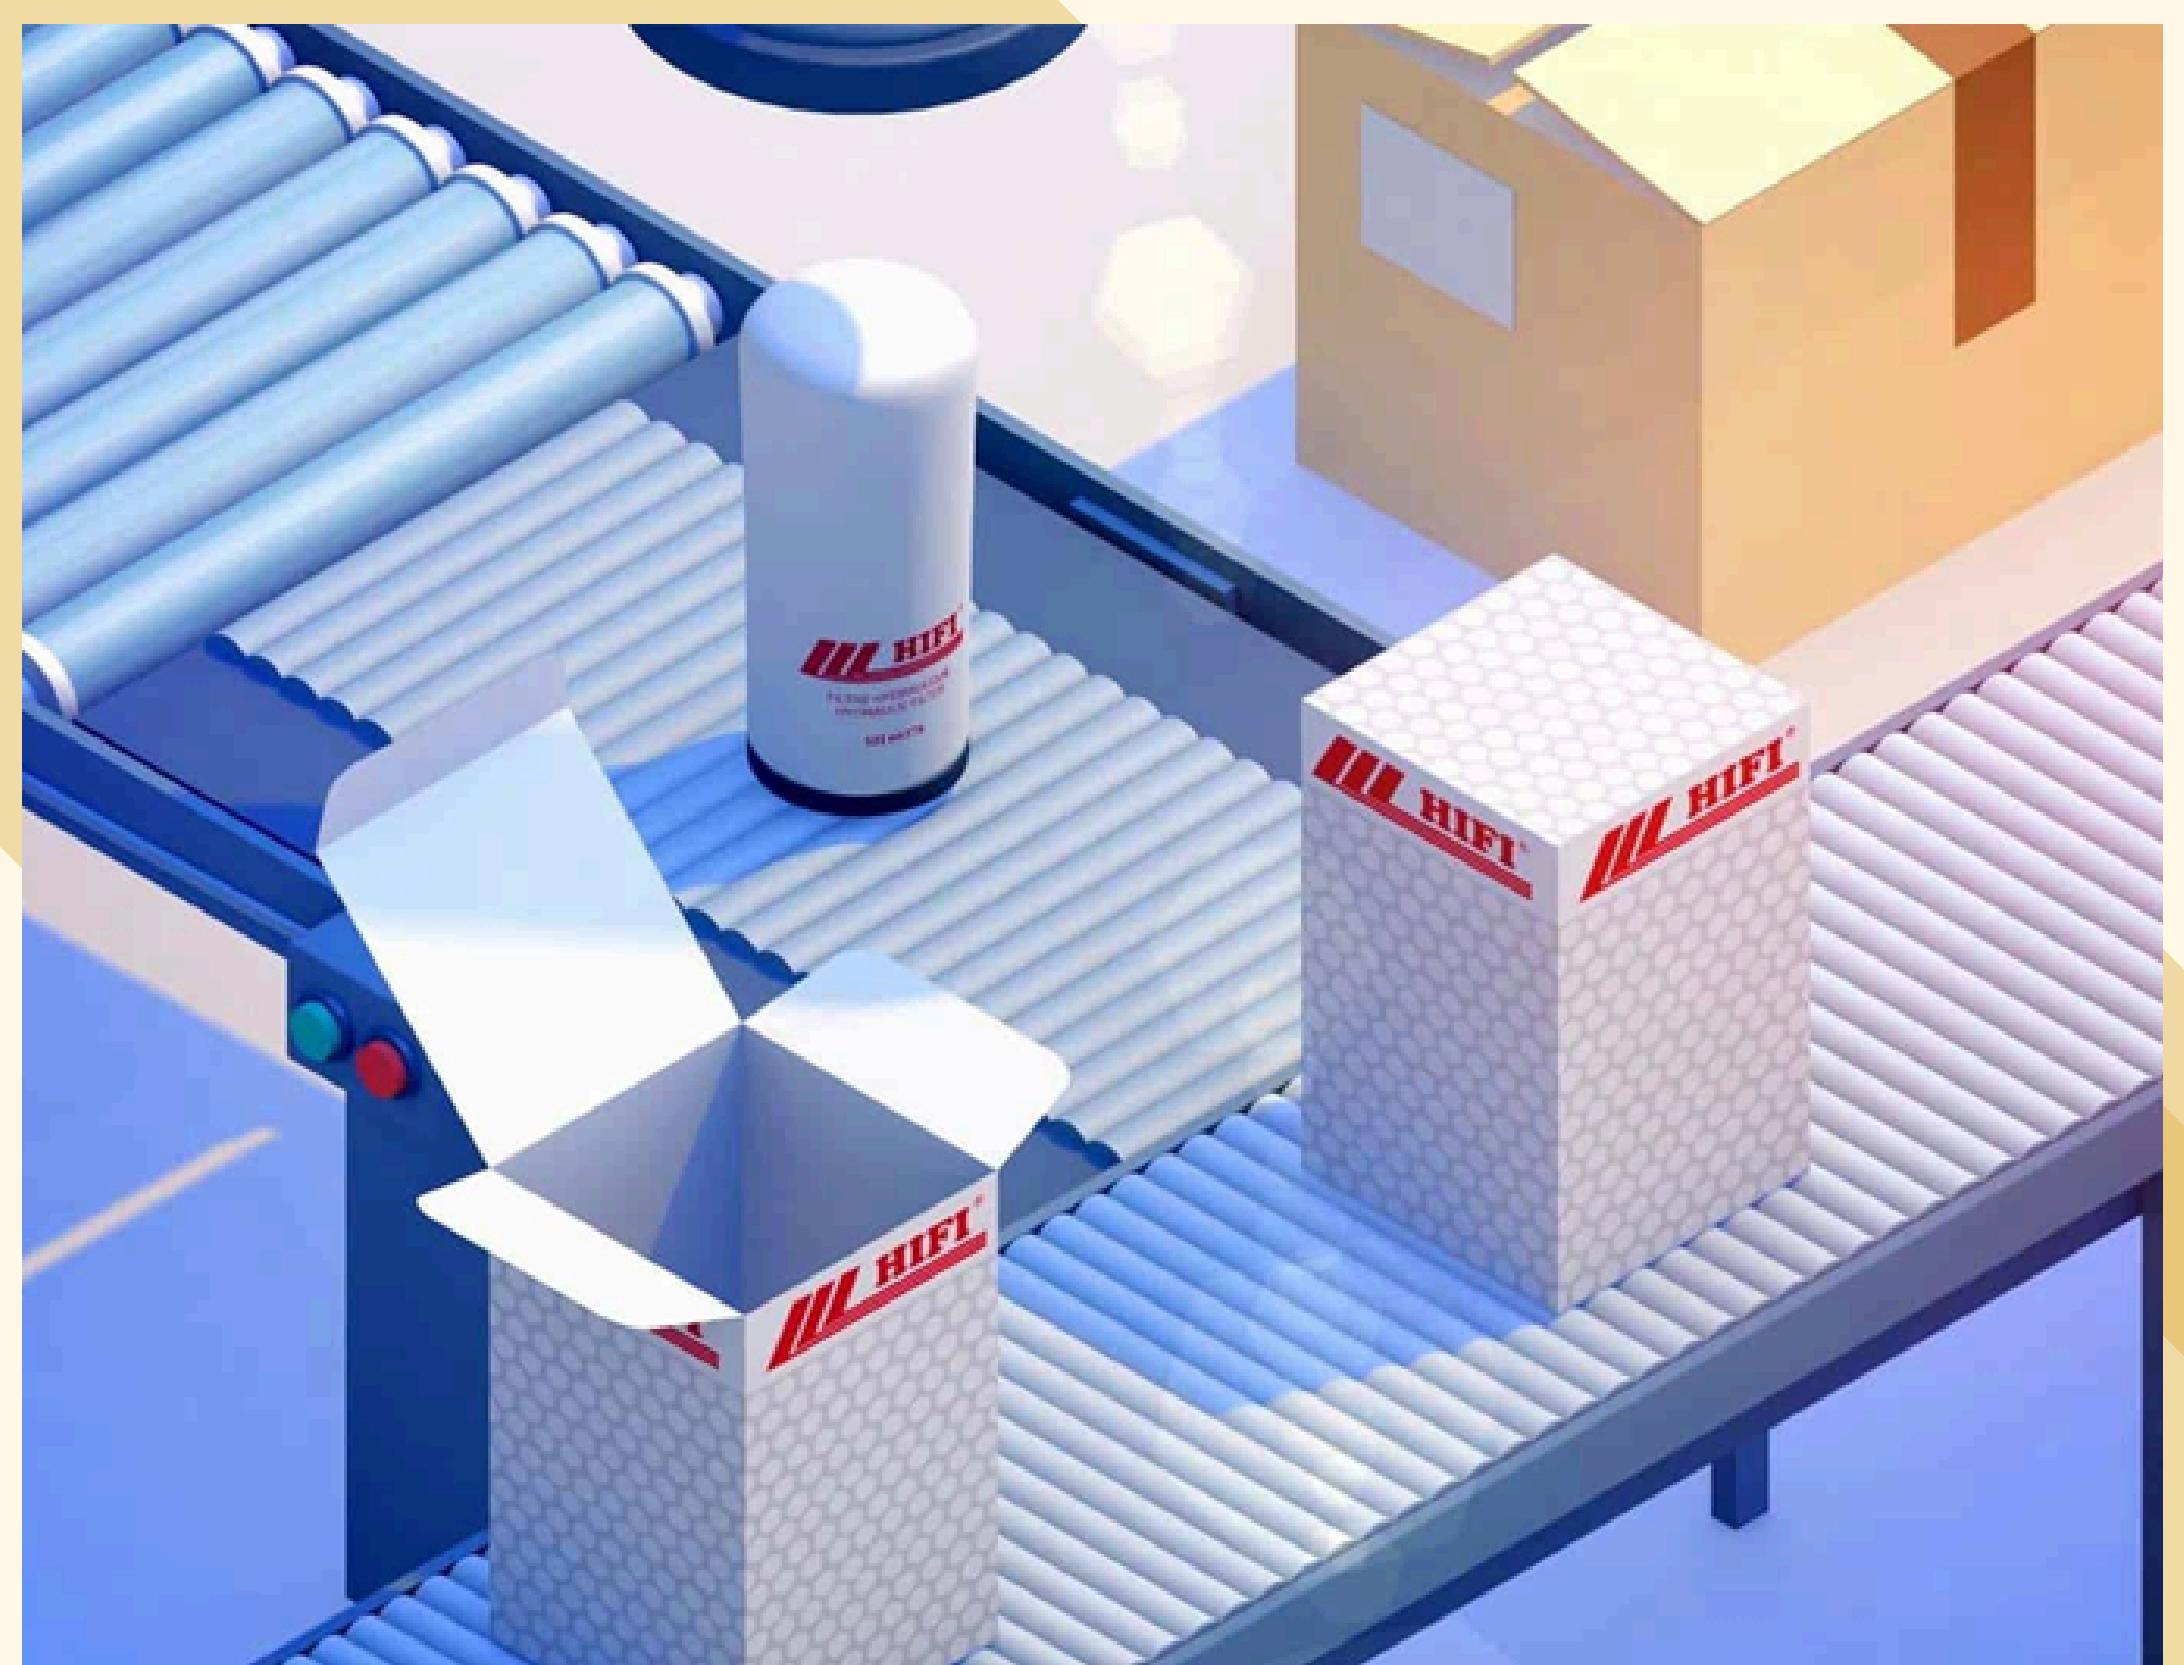

Your partner in filtration & separation

For over 40 years, HIFI FILTER® has been specialising in filtration and separation solutions for mobile equipment and industrial processes.

As a leading partner to professionals, we develop and distribute over 70,000 products to help them manage the filtration of their vehicles, machines and installations.

Combining the most diversified range of filters and accessories in the world with the performance of services adapted to each need, we bring reactivity, expertise and proximity with the aim of simplifying the world of filtration.

We are specialist manufacturers of hydraulic measurement and control products helping to improve the productivity of heavy machinery.

Fixed Flow Pressure Compensated Control Valve LFC Series

Flow: up to 16 L/min, 4 US gpm

Pressure: up to 210 bar, 3000 psi

Variable Flow Pressure Compensated Control Valve VFC Series

Flow: up to 55 L/min, 15 US gpm

Pressure: up to 210 bar, 3000 psi

Variable Priority Flow Dividers with Remote Proportional Control VFD120 MD Series

Flow: up to 120 L/min, 32 US gpm

Pressure: up to 420 bar, 6000 psi

Combination Valve - Variable Priority flow divider with Directional Control CV120 Series

Flow: up to 120 L/min, 32 US gpm

Pressure: up to 250 bar, 3600 psi

Inline filters

Block mounting filters

Return line filters, tank-mounted

Suction line filters

Return line suction filters

Bypass filter
